- Faculty of Textile Industries and Fashion Design's Environmental Conservation Project (Green Faculty).

## Project preparing for the Green Office assessment.

The Faculty of Environmental Science and Technology organized a project to prepare for the Green Office assessment in an online format for faculty members and staff from March 30 to 31, 2022. On the first day, participants received lectures from Dr. Khunawuth Inkaew, and Assistant Professor Dr. Varinthorn Buniyarote, both regular faculty members in the Environmental Science and Technology department. On the second day, a mixed-format activity included lectures and practical exercises on the 5S waste management and environmental improvement for achieving a Green Office. This event took place at the Faculty of Science and Technology, Rajamangala University of Technology Phra Nakhon.

# Responsible Consumption and Production

## Faculty of Textile Industries and Fashion Design's Environmental Conservation Project (Green Faculty).

On July 8, 2022, the Faculty of Textile Industries and Fashion Design at Rajamangala University of Technology Phra Nakhon, under the Cultural Affairs Department, organized the "Green Faculty" Environmental Conservation Project. The opening ceremony was presided over by the Dean, Dr. Matusros Weangsimha.

The purpose of this project is to address issues arising from waste that negatively impacts the environment, both directly and indirectly. The faculty is committed to environmental conservation, reducing pollution, and increasing green spaces. Additionally, they aim to repurpose waste and natural materials in various ways. The textile science is employed to enhance the value of waste materials.
